

Introduction

For maximum enjoyment and bird watching opportunities, we recommend you place your birdbath within easy viewing of your favorite backyard window. To reduce maintenance, you can place your birdbath near your garden hose making cleaning and refilling easier. We recommend that you regularly clean your birdbath and change the water often to prevent any algae building up.

ASSEMBLY

*Style of birdbath may vary

If your birdbath has accents:

Locate the pin on the accents and insert into the holes around the edge of the bowl.

Attach the bowl to the pedestal as shown, align the marks and turn to lock in place.

Fill the bowl with water.

Frost Warning: Frost causes damage. Store product in cool, dry place during freezing weather.
